

Space Defender

Aliens are trying to attack Earth!! You must defend the Earth from these invaders in your state-of-the-art stratospheric fighter ship.

Basic Controls

Control your fighter ship by using the left and right arrow keys to turn, and the up and down arrow keys to move forwards and backwards. Fire your fighter ship's main laser cannon by pressing the space bar. Press the '**P**' key to pause and unpauses the game.

Special Weapons

Your fighter ship is equipped with several special weapons:

Mines: Drop space mines with the '**M**' key, when an alien flies into a mine, all the nearby aliens are damaged.

Zap: Give nearby aliens a massive electrical blast by pressing the '**Z**' key. Useful if you are backed into a corner.

Barriers: Erect a temporary force field barrier with the '**B**' key. This will keep enemies at bay and give you some cover when you need it.

The nearby Space Command Orbital Station will send you supplies for your fighter ship whenever you can clear the stratosphere from enemy ships.
